

Coronavirus (COVID-19) Update

You will be aware of the ongoing COVID-19 situation worldwide which is a WHO declared pandemic and National Health Emergency.

Our primary concern is to protect the health of our staff and everyone they come into contact with but we also aim to continue to offer as seamless a service as possible. We have structured plans in place to maintain our operations and are reviewing these on a daily basis as the situation develops

We have taken the decision to keep all face to face contact to a minimum, therefore if you have a visit or meeting scheduled, please speak to your usual contact to make suitable arrangements. Where possible we have implemented working at home practices to minimise unnecessary contact.

Any visitors to Hiretech must comply with all Government and NHS advice to minimise the risk of the virus spreading.
